## Mary MacLaren

in a Super Photoplay made from  
Fannie Hurst's Great Story

## "A Petal on the Current"

You read this wonderful story in the Cosmopolitan and now comes beautiful Mary MacLaren in a marvelous picturization of it—the finest thing she has ever done. A drama that will live in your memory for years. Now playing.

FIRST METHODIST EPISCOPAL  
CHURCH ACTIVITIES INCLUDE  
A SOCIAL AT ESTHER HOME

Rev. Christian R. Garver says: Tonight at 8 o'clock there will be a choir rehearsal at the Methodist church. C. M. Walton will be director. A full attendance is very much desired. We are soon to enter a series of evangelistic meetings and a large chorus is needed in the near future a regular organization of the choir will be completed.

This evening at Esther home, corner of Twenty-fifth street and Adams avenue, the ladies of the church will tender a reception to Rev. and Mrs. C. R. Garver, Miss Belle Ferguson, deaconess, and Rev. William Frary and wife. This is the beginning of the fourth year of Rev. Garver's ministry in Ogden. Rev. Frary goes to Europe to take the pastorate of the Methodist church there. Miss Ferguson has been reassigned to the local church for another year.

Dr. James W. Kramer of San Jose, California, gave a very interesting and helpful talk last night at the mid-week service of prayer and praise. He said in part:

"A man must have a creed. If you have no creed then for goodness sake get one. But creeds amount to nothing unless clothed in flesh and blood and then walking up and down the earth and ministering to the needs of man. God does not change but man's interpretation of the teachings of the book may change."

"I believe in up-to-date methods of advertising. Our own government during the recent war, taught us her faith in advertising and the results proved to be worth the effort. The church should advertise. She has the goods that the

world needs, and ought to be anxious to let all the people know about her Christ."

Dr. Kramer told the story of a bishop who frequently visited a city church and upon all his visits there he was pleased to find a number of Orientals present and worshipping, but upon one occasion, when visiting this particular church, the good bishop missed these Orientals and asked the pastor about them and the young pastor said:

"We had to ask them not to come as they were covered with bedbugs." The bishop replied: "Well, my young man, you have turned out of the church the very best thing you had in the church when you did this thing."

"I may shock you a little," he said, "but some people need to be awakened. Yes, the Gospel is the same, but man's interpretation has changed with the years. I remember when I entered the ministry that the congregation in that section of this country would not tolerate a musical instrument in the church. Vigorous battles were staged over this very question, but today all churches believe in using all musical instruments in public worship, to praise God with."

Dr. Kramer said also that the fact that the local Methodist church was willing to co-operate with a Baptist in revival work was proof that a true Christian unity is rapidly coming into existence in the church world."

Dr. Kramer, commonly known on the coast as "Big Jim," will begin a series of meetings in the Methodist church Sunday, October 12th. These meetings will continue each night during the month of October.

Cannon created quite a sensation when he arrived in Ogden today. Large crowds gathered on Hudson avenue to give the traveler a welcome. He stated that his trip from the northwest had been made in fast time and that he was eager to renew his journey. For each day that he is late in arriving in New York he forfeits \$1,000.

"The great outdoor life is the only life," said Cannon, "this morning. In the early days the Indian lived the life of the woods. They enjoyed the open air, the cold weather of the winter and the sun's rays in the summer."

"In my travels I have lived in the open, am the picture of health and feel just as fit as when I held down the short-field position on the championship Harvard aggregation in 1906. Although I haven't had much chance to figure out the White Sox and Reds, I am satisfied that Pat Moran's men will win the championship."

BITRO-PHOSPHATE  
IS GOOD FOR THIN  
NERVOUS PEOPLE

A PHYSICIAN'S ADVICE.

Frederick S. Kelle, M. D., Editor of New York Physician, writes: "While I say that weak, nervous people who have increased weight, strength and nerve-fibre, should take a 2-grain tablet of Bitro-Phosphate just before or during each meal."

This particular phosphate is the discovery of a famous French scientist, and reports of remarkable results from its use have recently appeared in many medical journals.

If you do not feel well; if you tire easily; do not sleep well; or are too thin; do to any good drugist and get enough Bitro-Phosphate for a two weeks' supply. It costs only fifty cents a week.

It is a fact that if you do not feel stronger and better than you have for months; if your nerves are not steady; if you do not sleep better and have more vim, endurance and vitality, your money will be returned, and the Bitro-Phosphate will cost you nothing. Advertisement.

After having spent two years as a chief machinist's mate in the United States Navy, part of his "cruise" having been with the U. S. S. Chattanooga, Frank Williams has returned to Ogden.

Williams entered the service on the day when the United States declared war on Germany and since that time has seen service in every sea, with the exception of the Arctic and Antarctic.

While he has qualified for a first assistant chief merchant marine license, Williams states that terra firma is preferable and that he will probably return to his former position at the Southern Pacific shops.

CUT THIS OUT—IT IS WORTH MONEY. DON'T MISS THEM. Cut out this slip, enclose with 5c and mail it to Foley & Co., 2355 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup. Foley Kidney Pills for pain in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley's Cathartic, a wholesome and thoroughly cleansing cathartic, for constipation, biliousness, headache, and sluggish bowels. Second Ward Is to  
Increase Interest  
In Mutual Work

The official opening of the Mutual Improvement Association of the Second ward will occur next Wednesday night in the form of a social evening with a dance and entertainment.

Good music has been procured for the evening and refreshments, prepared by members of the Y. M. M. I. A. will be served.

Active class work of the ward mutuals will begin the following Wednesday. It is expected there will be a

decided increase in membership this year, due to the campaign which has been carried out during the past several weeks.

Arrangements are being made for the forming of a ward band in connection with the M. I. A. Lester Hinchcliff has announced his willingness to be the instructor of such an organization.

Bishop George Browning stated yesterday that every effort is being made on the part of the bishopric as well as the Mutual Improvement officers to make this season at the ward one of the most profitable and enjoyable ever experienced.

TEACHERS ARE NOT IN  
BOOK DISTRIBUTING  
BUSINESS

The schools of Ogden are not in the book peddling business. Such in substance is the statement of Supt. Hopkins as made to The Standard in the following:

To the Editor of The Standard: It has been reported to this office that we have temporarily released two teachers for the purpose of distributing a set of "Student's Reference Books," said books being a necessary part of every child's educational equipment.

May I take this means of stating that such reports are absolutely without foundation? I have released no teacher for said work and have not recommended or endorsed any such books. In fact, I have not met the agents or examined the books which they are selling. I am, therefore, ignorant of the merits of said books, and if parents purchase them they must do so upon their own judgment, as we have not requested or required the use of any "Student's Reference Books" in the home.

(Signed) W. KARL HOPKINS, Superintendent.

OGDEN PEOPLE  
PREVENT APPENDICITIS

Many Ogden people are using simple glycerine, buckthorn bark, etc., as mixed in Adler's-Ka. This flushes BOTH upper and lower bowel so completely it removes all foul, accumulated poisons from alimentary canal and prevents appendicitis. Adler's-Ka. relieves ANY CASE of constipation or our stomach. Often CURES constipation. In one case of chronic stomach trouble ONE bottle produced wonderful results. A. R. McIntyre Drug Co.—Advertisement.

Judge Agee Upheld  
By Supreme Court

The supreme court of the state upholds the decision of Judge Alfred W. Agee in the matter of the disposition by the state of the automobiles and containers which are seized in liquor raids. The decision is based upon the cases tried in the court last December in connection with the "Bud" Ryan case.

The judgment of the district court was affirmed in the case of the state, respondents, against Hyrum Jensen and certain intoxicating liquors, vessels and other property alleged to have been unlawfully used, and also a Hudson automobile and C. H. Reilly and F. B. Ryan, appellants.

Under the judgment entered by Judge Agee, as affirmed by the supreme court, a large quantity of liquor was ordered to be publicly destroyed by the sheriff and the Hudson automobile, as well as the vessels containing the liquor, were ordered sold at public auction to the highest bidder.

## In Charge of Census

George Romney, Jr., supervisor of the First district in Utah in the census, has opened offices on the second floor of the federal building and will direct enumeration and compilation of

Not An Age For Weaklings—  
Nation Demands Men of Blood and Iron

Physician says Iron is Absolutely Essential to Greatest Development of Physical and Mental Power.

How Organic Iron—Nuxated Iron—Helps Put Renewed Vim and Energy Into the Veins of the Weak, Run-Down, Infirm and Aged Often Increases Their Strength in Two Weeks' Time.

This is not an age for weaklings—war-time methods of living have raised the physical standards of the nation. So many modern men and women have more

iron in their blood today as a result of eating coarse foods and living in the open that their vigorous health and untiring energy are in sharp contrast to the weak, run-down condition of those whose blood is literally starving for want of iron. To possess the power, energy and endurance that win we must keep the blood rich in strength-giving iron and unless sufficient iron is obtained from our foods it must be supplied in some form which is easily absorbed and assimilated by the system. For this purpose physicians below explain why they prescribe organic iron—Nuxated Iron—which by enriching the blood and creating thousands of new red blood cells often quickly transform the flabby flesh, toneless tissues and pallid cheeks of

weak, anemic men and women into a glow of health. It increases the strength of delicate, nervous, run-down folks in two weeks' time in many instances.

In commenting upon the probability of building up the strength and endurance of the nation by increasing the supply of iron in the blood, Dr. George H. Baker, formerly of the U. S. Army, Monmouth Memorial Hospital of New Jersey, says:

"Iron is absolutely necessary to change food into living tissue, muscle and brain. Refined foods and modern methods of cooking have robbed us of much of the iron which Nature intended we should receive and there is no doubt in my mind that the coarse foods of war-time, with their greater percentage of strength-giving iron, have materially aided in the health of the nation."

But unless this iron is obtained from our food it must be supplied in some form

that is easily assimilated. If we want to possess power, energy and endurance, we must keep the blood rich in strength-giving iron and unless sufficient iron is obtained from our foods it must be supplied in some form which is easily absorbed and assimilated by the system. For this purpose physicians below explain why they prescribe organic iron—Nuxated Iron—which by enriching the blood and creating thousands of new red blood cells often quickly transform the flabby flesh, toneless tissues and pallid cheeks of

WALKING IS A HOBBY FOR  
THIS MAN WHO IS ON HIS  
WAY TO NEW YORK CITY

Frank "Speedball" Cannon, a walker of world fame, arrived in Ogden today on a bike that started at Juneau, Alaska, some months ago. The veteran traveler was loaded down with letters from mayors of various cities, supplies and other materials which are necessary on such a trip.

Cannon resides in New York City and, during his school days, was noted as one of the best athletes stars that ever cavorted around the diamond at Harvard. His leisure moments are employed in talking and his latest attempt at the hiking game was made on a wager with an uncle, Henry Chatham, of New York City. According to Cannon, in order to

win his bet he must be in New York City before November 15, at which time he will win \$15,000, providing he arrives on that date, and shows his credentials that he has tramped from Juneau to New York.

On the trip from Juneau, Cannon has worn out fifteen pairs of first-class shoes, seventy-eight pairs of socks, three hiking suits and a number of other garments.

He departed early this afternoon for Morgan, from which place he will walk east to Cheyenne, Omaha, Chicago and then New York.

By profession, Cannon is a mining engineer, but by hobby he is a walker.

200 New Hats  
Big Lot of Trimmings

We are just in receipt of another big lot of new hats, also a great quantity of extra trimmings, feathers, flowers, etc. Trimmings will be sold separately. These new hats will be sold at near factory prices. We are sure we can please you in quality and style as well as price. Room 423, fourth floor, Hudson building.

## 2 Large Cans Tomatoes 25c

All stores have a quantity of one of the best known brands of tomatoes at the unusual price of two for 25c. These tomatoes are ripe red stock, but a little overcooked, causing the tomato to cook to pieces. For every purpose you will find them superior to most brands. Two cans for 25c; case of 24 cans, \$2.95. 20c cans whole tomatoes, per can . . . 15c

20c cans whole tomatoes, per case . . . \$3.35
